“Finance made Simple”

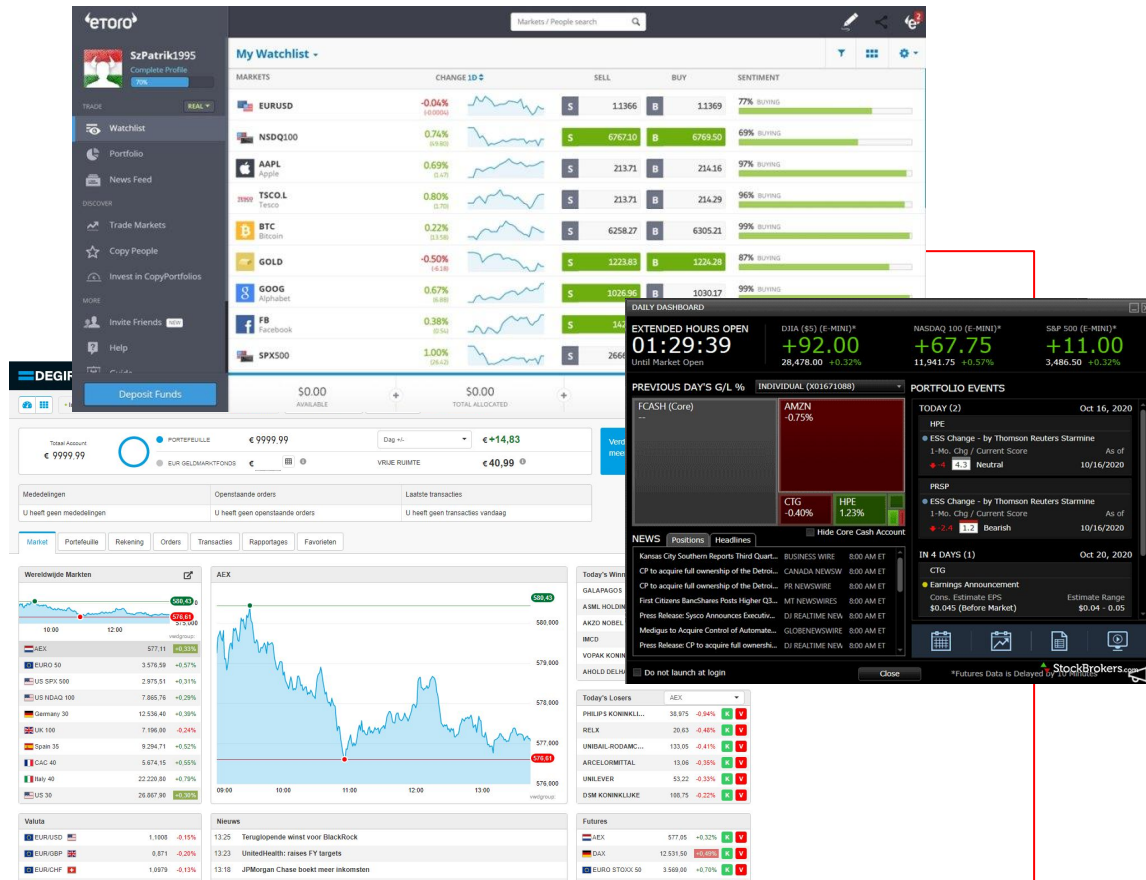

START
HACK

Whoa!

Did you know that 2 out of 3 adults worldwide are 'financially illiterate' ?

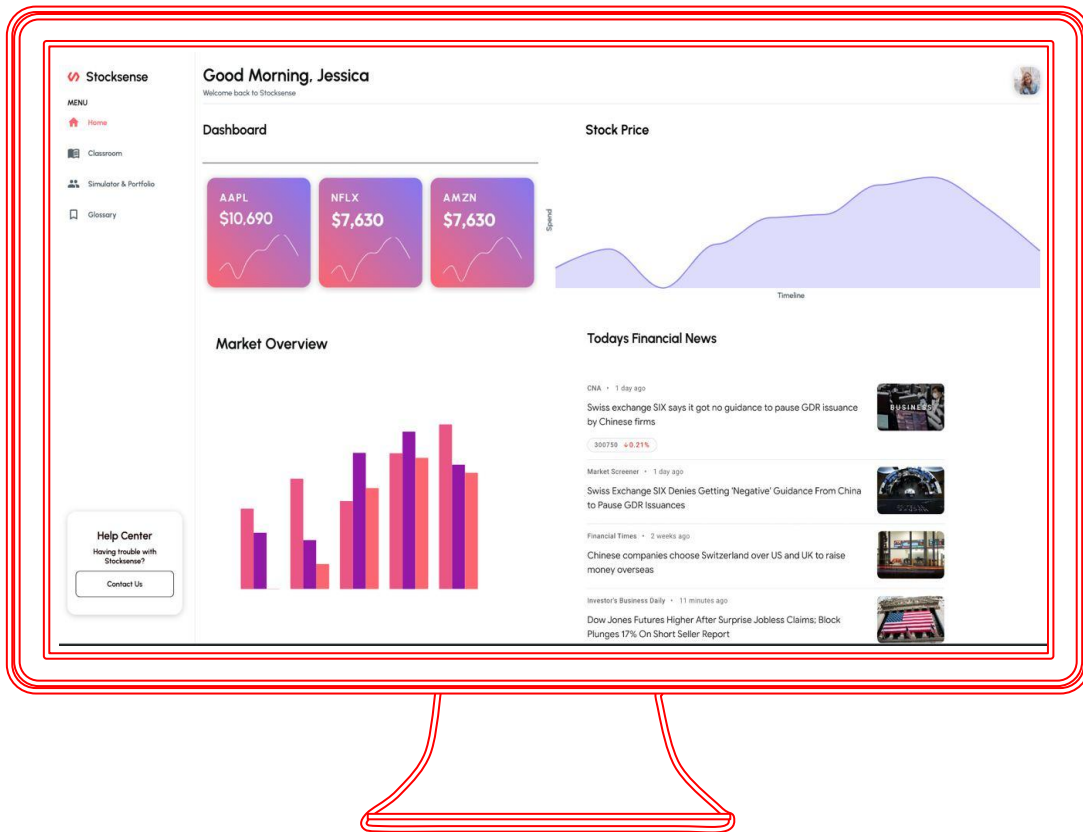

This is what most web brokers look like

Too cluttered;
no explanation or
description :c

StockSense - Our back-end

The screenshot displays the Postman interface with a REST client request configured. The URL is `https://start-deploy-backend.herokuapp.com/api/stockData/getPrice`. The request method is **POST**. The request body is set to `form-data` and contains two parameters:

Key	Value	Description
<input checked="" type="checkbox"/> <code>ticker_symbol</code>	<code>AAPL_67</code>	
<input checked="" type="checkbox"/> <code>start_date</code>	<code>2022-03-23</code>	

The response is displayed in the **Body** tab, showing a JSON object:

```
1 {"priceList": [], "datesList": [], "std": [11.726870713744321]}
```

The status bar indicates a successful response with status **200 OK**, a response time of **2.28 s**, and a response size of **237 B**.

Our strengths

Learning

Learn everything you want, at your own pace, without a risk.

Efficiency

For your decisions, focus only on the important data.

Clarity

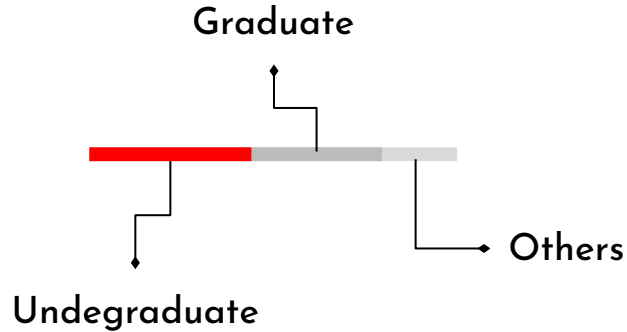

Never bother with non-user-friendly UIs again.

Customer profile

—
Age

—
Education

- We don't really care about who you are: our platform is intended for everybody who wants to understand finance and be an independent, well-educated investor.

Future developments

ChatGPT integration

Your favorite AI assistant, providing financial support inside our platform.

...and more!

Who knows what else we could come up with?

Pro Mode...

At some point, everybody wants to go pro 😎

Courses

Full-fledged lessons by our experts.

**“Everything should be
made as simple as possible,
but not simpler.”**

–Albert Einstein
